

# Spring welcome to MOST

Research agenda for WP2 with an introduction to PhD projects  
*Bærekraftig mobilitet som et integrert system*

Trøndelag fylkeskommune  
Trööndelagen fylhkentjjele

NTNU

Norwegian University of  
Science and Technology

May 2023

# Objectives

- To consider the transport demands of people and freight (goods) in an integrated system
- To develop (*improve existing*) a tool(s) to assess mobility solutions (shifting focus from passenger car transport to active, public, and new modes of transport)
- To capitalize on increased digitization and big data
- To assess how to integrate said tools into a digital twin
- To assess how/if digital twins can be used within sustainable transport planning

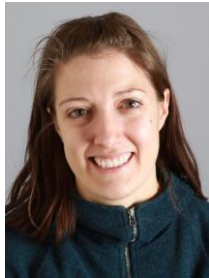

# Who we are

*Trude Tørset*  
(IBM, professor)

*Yngve Frøyen*  
(IAP, professor)

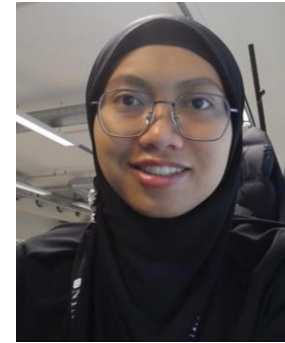

*Kelly Pitera*  
(IBM, professor)

*Dipanjan (Dip) Nag*  
(IBM, post-doc)

*Freyja Brandel-Tanis*  
(IBM, visiting Fullbright Scholar)

*Zakiya Pramestri*  
(IBM, PhD student)

*Zalalem Birhanu*  
(IBM, PhD student)

*Tsaqif Wismadi*  
(IAD, PhD student)

*Eline Hernes*  
(IBM, student researcher)
